Sento Introduction

Sento, world class stainless steel faucet manufacturing enterprises, is the founder of stainless steel faucet in China. Founded in 1999, its former named is Huangqi Qinglian Hardware Machinery Factory. At the beginning of 2000, with an idea of making faucets with healthier, more environmentally friendly and durable materials, the two over fifty years old Sento' s founder Mr. Kong Qingyi and Mr. Shen Zemin, overcame numerous process and technical difficulties, successfully invented the first SUS304 stainless steel faucet in the china. In the subsequent decades, under the leadership of the two Sento' s founders, with the concept of "quality the first, cost the second", we focus on research and development of SUS304 stainless steel faucet, continue to promote technological innovation of stainless steel sanitary ware industry, train a large number of technical elite for the industry, and has driven the development of the whole stainless steel faucet manufacturing industry.

Sento' s products cover stainless steel faucet, stainless steel shower and shower column, stainless steel bathroom cabinets, stainless steel sink, stainless steel kitchen pendants, stainless steel floor drain, etc. They are sold to nearly 90 countries and regions, and are widely used in villas, high-end communities, commercial office buildings and public places. Sento is the only domestic enterprise which passes seven international certifications, including Holland KIWA, Australia Water Mark, America SGS, European EN-817, America UPC, Denmark VA, Hongkong water supplies department WARS detection.

In recent years, Sento stainless steel faucet continuous unveiled at the top three industry events, including Shanghai international exhibition kitchen, Germany Frankfurt ISH international kitchen exhibition and USA KBIS international show. It attracts all attention inside and outside the industry. Sento has won the top 100 Kitchen Bathroom Enterprises, Chinese Manufacturing Beauty, Canton fair "CF" award, and other awards.

In the future, in order to build up a world class stainless steel faucet kitchen and bathroom brand with great competitiveness and influence, we will adhere to the strictness, good quality and perfectionism. We will bring a healthier, more environmentally friendly, and better high-end kitchen and bathroom products.

Famous designer
from Danmark
JACOB JENSEN

Jacob Jensen, a design legend. During the past 50 years, he had designed more than 500 industrial products and won over 100 design awards all over the world. You may once were crazy about the elegant and highly sophisticated style of the audio he designed for Royal Danish Bang & Olufsen.

Jacob Jensen – born 1926 in Copenhagen Denmark – is a well established name in the field of industrial design. Through his unique design concept “Design is a language understood by everyone.” Design language of Jacob Jensen is original, which is simple while classical.

In 1999, he was even elected to “Great Danes”. The museum of Modern Art in New York owns over 19 pieces of Jacob Jensen’s design works. He is recognized as one of the leading creators of original form of the 20th century, saying that he is a treasure in human history of industrial design is not an exaggeration. He has remained some excellent works among numerous designs and developed an international product line under the brand name JACOB JENSEN.

Jacob Jensen, as chief designer of Sento, design with the simple and classic products for Sento. In these products, particularly in the Phoenix series as the representative.

DESIGNERS

Famous designer
from Sweden
ANDERS
KRISTIANSSON

Anders Kristiansson, born 1956, is a highly experienced and qualified Industrial designer. He works with international design projects for a wide range of leading Scandinavian and international companies in areas such as automotive, industrial, household and sports. Anders design has been recognized and rewarded with several Swedish and international design awards.

Anders was one of the founders of the Design Department, a leading design agency in western Sweden during the 1980:s and -90s. Since then, he has worked in several successful creative businesses and is currently active in two design companies: Radie KB and Escenda Design. Radie and Escenda are working with clients such as ABB, Bentley, BMW, FlexLink, Kuka Robotics, Porsche, Scania, SKF, Volvo Cars, Volvo Trucks and Wildo.

He is clear about the competitive advantage that good design can produce outstanding products. “My design should express the quality of the product and give it an obvious identity. At the same time design is a brilliant gift to the user, and a way to surprise, make an impression and create positive emotions. The design will get you to like, understand and use the product, whatever it is. And, by seeking sustainable solutions, product design actually can contribute to making the world a better place, by taking the environment inmaterials into account . This means that all design tasks are completely new and exciting challenges.

In addition to working as a designer, Anders collaborates with several large Swedish companies, as being responsible for developing design strategies and set the profile to the company’s products. He is also requested as a mentor and coach at design schools in Sweden. Lutz Series is the representative work by him.

LAVATORY FAUCET

LAVATORY FAUCET

Even in static image,
it couldn't stop the smart beauty
from the Veronica series.
Strong lines create irresistible charm.
Its performance likes a
surprising fashion show,
came from the grace,
beyond your expectation.

You can't imagine the way to
adjust the water direction does not
necessarily need to
regulate the whole tap body.
Now, in the brand-new Veronica series,
you only need to rotate nozzle box gently,
it can easily achieve 360° adjustment.
It's not only beautiful,
but also convenient.
