- 1 Durable brushed finish.
- 2 Lead-free, healthy and eco-friendly
- 3 Solid #304 stainless steel material
- 4 Precision casting with smooth inside of faucet body

COMPANY HISTORY

- 1999 Founded Qinglian Hardware Machinery Factory and manufactured medical hand-washing device under brand "双桃".
- 2002 Started stainless steel faucet project. After 8 months of development, the first stainless steel faucet was born.
- 2004 Registered trademark "先淘" and "SENTO".
- 2006 Sento stainless steel faucets were introduced and sold globally upon approval of the Watermark certification.
- 2008 Sento products approved by cUPC certificate, SGS testing, Kiwa certificate, EN 817 testing, VA certificate, WRAS testing and sold well in overseas markets.
- 2009 Worked with Danish designer Jacob Jensen to create the Phoenix Series which combines iconic design with stainless steel. In the same year, signed a strategic investment cooperation agreement with Changde Tianlun Precision Casting Co., Ltd and planned to set up HUNAN SENTO Stainless Steel Sanitary Ware Co., Ltd, then started construction on the first phase of the new 323,000 ft² facility.
- 2011 Set up "HUNAN SENTO Stainless Steel Sanitary Ware Co., Ltd" in March and launched the first production line of precision casting; Gained awards such as "Green Eco Products mark" and "Most Innovative Brand in China Sanitary Industry", etc.
- 2012 Worked with Swedish designer Anders Kristiansson; Gained award "China Top 100 Kitchen & Bath Sanitary Enterprise" as the first stainless steel faucet manufacturer. Sento Phoenix 1 basin faucet gained award "Beauty of Made in China".
- 2013 SENTOUSA, LLC was formed in California (United States) to expand the North American market. Construction began on the second phase of the 323,000 ft² facility.
- 2014 SENTO AU PTY LTD was founded in Queensland, Australia in March.
- 2015 The second phase of plant has completed and is ready for rapidly growing market demand.
- 2016 The auto-production line for filter faucet has come into service.
- 2018 The auto-polishing machines have come into service.
- 2019 The multicolor (different finishes) series have launched.
